Light To See: Thermal Imaging

Quickly identify pathologies earlier in their disease states, provide a roadmap for treatments & further diagnostics, and monitor progress over time. Communicate all of this easily and visually to strengthen the trust and confidence in your client relationships.

- Visualize & Identify
- Quantitatively Compare
- Qualitatively Track

- Develop a Roadmap
- Unlock Additional Services
- Communicate Visually

Light To See: Thermal Imaging

Patient Benefits

- **Visualize & identify** sites of inflammation, vasoconstriction, neurological deficiencies, as well as **secondary and compensatory** problems
- **Quantitatively compare** anatomy throughout the body with **objective measurement**
- **Qualitatively track the progress** of therapeutic interventions against the body's natural baseline **symmetry**

Light To See: Thermal Imaging

Practice Benefits

- Provide a **road map** for targeted **diagnostics** and **treatments** with laser therapy and other modalities
- Focus on **client-centered care**, allow the pet-owner to be **actively involved** in the decision-making process with **easy-to-interpret images and videos**.
- **Increase pet-owner compliance** with easy-to-interpret follow-up exams to **track progress** and therapeutic results.

Light To Treat: In-Clinic Laser Therapy

Confidently treat the widest variety of patients & pathologies, with the most rigorously researched & validated arsenal of lasers. Designed with the highest safety profile, the most intuitive interface, and the portability to unlock another level of clinical efficiency in every room of your practice.

- Confidently Prescribe
- Comfortably Treat
- Accurately Deliver

- Consistently Treat
- Efficiently Deploy
- Financial Opportunity

Light To Treat: In-Clinic Laser Therapy

Patient Benefits

- **Confidently prescribe protocols** that are scientifically proven to have the **highest efficacy**
- **Comfortably** treat patients of all types with lasers designed to have the **highest safety profile**
- Treat the **widest variety** of patients & pathologies with a **full arsenal** of lasers, treatment applicators, & accessories

Light To Treat: In-Clinic Laser Therapy

Practice Benefits

- Provide your staff a suite of **familiar, easy-to-use devices** that provide the flexibility to treat by **anatomy & symptom**
- Unlock another level of **clinical efficiency** with fully portable, on-demand devices available for use in **every room of your clinic**
- Maximize the **full financial opportunity** of light-based medicine around the clinic, from **exam room to surgical suite**

Light At-Home: Take-Home Laser Therapy

Extend the proven clinical results of light-based therapy beyond the clinic to the comfort of your patient's home & their schedule. In doing so, realize an increase in compliance & efficacy, free up exam rooms & staff time, and enjoy an impactful revenue stream that is reasonable for your clients.

- Proven Efficacy
- Enable Convenience
- Complete Recovery

- Increase Compliance
- Maximize Resources
- Passive Revenue Stream

Light At-Home: Take-Home Laser Therapy

Patient Benefits

- Extend the **proven efficacy** of light-based therapy **beyond the clinic**, through the patient's full healing journey
- Enable the convenience of treatment in the comfort of your **patient's home & at their schedule**
- Increase the frequency of laser treatments to support a **faster and more complete recovery**

Light At-Home: Take-Home Laser Therapy

Practice Benefits

- **Increase overall compliance** to the plan of care through the **full prescription term**
- **Free up exam rooms & staff time** to better utilize your in-clinic resources to maximum financial & logistical potential
- Enjoy a **passive revenue** stream that is **reasonable for your patients and impactful to your bottom line**
